About us

Pars Mani Ista is established in May 2008 as a PJSC company to provide infrastructure services in Civil and Construction, Telecommunication, Electrical and Mechanical facilities and Supply of Equipment.

At the beginning of the company's activity, by organizing dedicated technical teams and effective implementation of projects in cost, quality and time dimensions, we were able to pass our organizational growth period successfully and By trying to fully comply with international standards and specific requirements of the customers, desired results have been achieved.

By providing needed infrastructures, knowledge development and competency of personnel we could carry out projects in field of design, construction, telecommunication and hospital infrastructure, electrical and mechanical facilities, landscape, renovation, internal design, Strengthening/ Reinforcement, urban projects, supply of equipment, etc. countrywidth.

During these years, as the Pars Mani Ista family, we realized that not only because of the warm presence of our hardworking and supportive colleagues we will have the opportunity to grow and develop more and more, but also the company of satisfied customers from the projects entrusted to us that will become friends of this family over time, have an undeniable influence in reaching our seemingly ambitious but achievable goals.

So it became our custom to appreciate our colleagues and companions so that we can achieve what is graceful us together in this field.

Mission

We are here to try to provide customers with the best quality services, at the lowest cost, and the highest satisfaction.

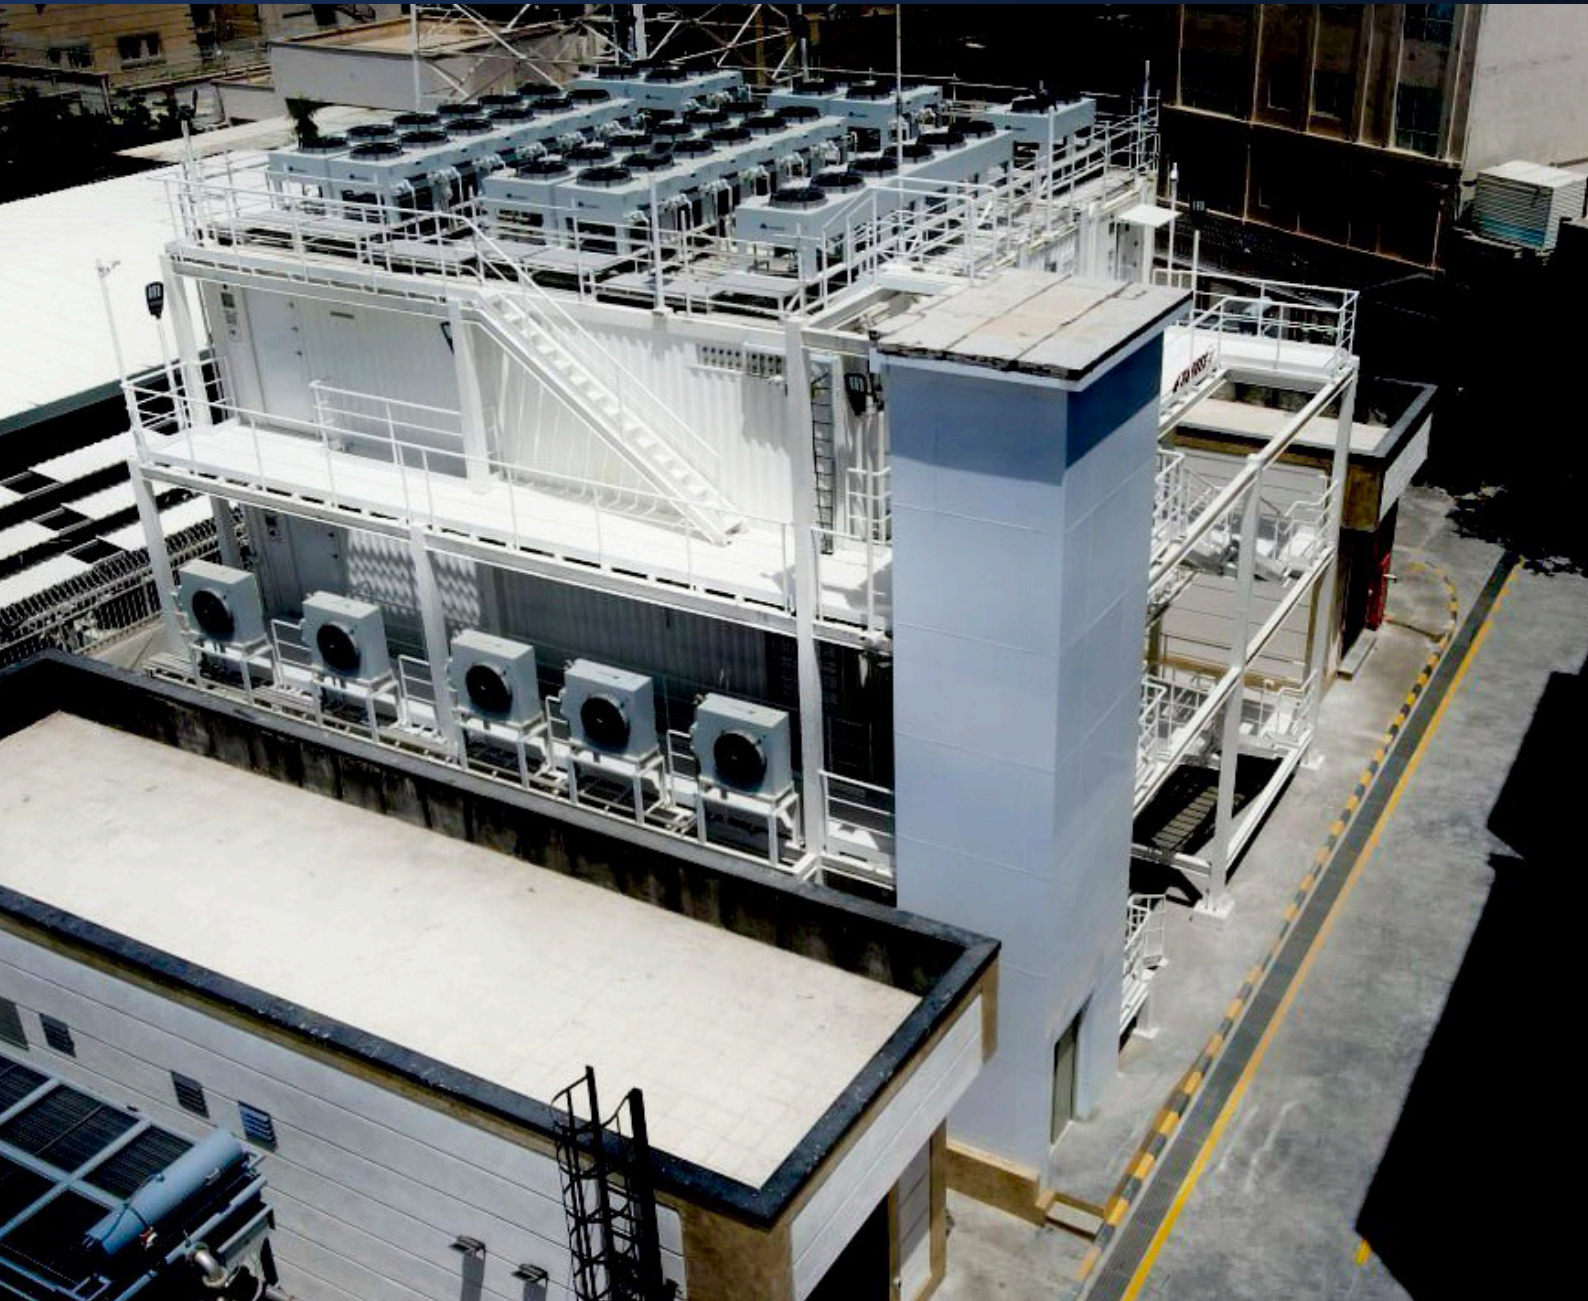

Vision

Organizational growth and advancement by carrying out special projects for special customers with the best innovations.

Our Goals

By combination of the latest technologies, valuable experiences, and the most unique team, we provide the most valuable services to our customers.

Capabilities

Data center infrastructure

Design, supply of equipment, and implementation of infrastructure and Data center infrastructure including buildings, electrical and mechanical facilities, low voltage systems, testing and commissioning

Structure and shed projects

Design, procurement and implementation of industrial and building steel constructions including steel structures, shed, mezzanine, pipe racks, etc.

Civil projects

Design, procurement and implementation of all civil projects including industrial, commercial, educational, administrative buildings, warehouses, healthcare facilities, landscaping, tunnel construction, etc.

Electrical Facilities projects

Design, procurement and implementation of all industrial electrical projects including medium voltage (MV), low voltage (LV) systems, grounding systems, power distribution systems, uninterruptible/Urgent power supplies (UPS), lighting, etc.

Mechanical installation projects

Design, procurement and implementation of all mechanical facilities projects including piping, heating systems, cooling systems, humidity fire, fueling, firefighting and protection, plumbing and water supply, drainage, etc.

Low Voltage electrical projects

Design, procurement and implementation of all low voltage system projects including control and monitoring systems (PLC), networks, fire alarm systems, CCTV, access control systems, sound systems, etc.

Telecommunication projects

Design, procurement and implementation of all telecommunication projects including site acquisition (SA), structure and tower construction, installation (TI), modernization of telecommunication sites such as BSC, BTS, (SWAP) etc.

Maintenance Services

Implementation of all maintenance projects in the field of telecommunication sites, electrical systems, facilities, low voltage systems, precision instruments (Instrumentation), controlling systems, diesel generators, etc.

Construction projects

Design, procurement and implementation of all construction projects, residential, commercial, and administrative including obtaining permits, foundation and structure brickwork, and delicate work, electrical and mechanical facilities, elevator, etc.

Renovation projects

Design, procurement and implementation of renovation and interior decoration projects related to residential, office, healthcare spaces, etc.

Strengthening/ Reinforcement projects

Design and implementation of Strengthening/ Reinforcement projects including residential and industrial buildings, bridges, tunnels, etc.

Equipment supply

Supply all materials and equipment including construction, electrical, mechanical, electronic and telecommunication systems, cooling and heating systems, chillers, diesel generators, MV and LV panels, cables, firefighting and fire alarm systems, data centers, UPS, etc.

Data center, Telecommunication and maintenance

Project: Construction of data center
and telecommunication equipment (T3)

Location: Tehran

Operator: MTNI

Project: Construction of data center and telecommunication equipment
Location: Mashhad
Operator: MTNI

Project: Construction of data center and telecommunication equipment
Location: Ahvaz
Operator: MTNI

Project: Construction of data center and telecommunication equipment
Location: Shiraz
Operator: MTNI

Project: Construction of data center and telecommunication equipment (T1)
Location: Tehran
Operator: MTNI

Service: Data center and telecommunication equipment maintenance (CM-PM)
Location: Mashhad
Operator: MTNI

Service: Data center and telecommunication equipment maintenance (CM-PM)
Location: Ahvaz
Operator: MTNI

Service: Data center and telecommunication equipment maintenance (CM-PM)
Location: Tehran
Operator: MTNI

Project: Telecommunications (BTS) sites civil work
Location: Yazd
Operator: Rightel

Project: Telecommunications (BTS) sites civil work
Location: Tehran
Operator: MCI

Project: Modernization of telecommunication sites (BTS-SWAP)
Location: Tehran
Operator: MTNI

Project: Site acquisition (SA)
Location: Tehran
Operator: MTNI

Project: Telecommunication containers laddering
Location: Tabriz, Shiraz, Ahvaz, Karaj, Tehran, Babol, Esfahan, Mashhad
Operator: MTNI

Project: Supply, installation and commissioning of diesel generator
Location: Tehran
Operator: Digikala

Project: Completion of BSC site
Location: Zahedan
Operator: MTNI

Project: Dummy Load test of UPS and rectifiers
Location: Tehran
Operator: MTNI

Project: Maintenance of diesel generator
Location: Tehran
Operator: Digikala

Electrical and mechanical facilities and equipment

P.M.I

Project: Renovation and equip of
warehouse

Location: Shiraz

Operator: MTNI

Project: Implementation of electricity facilities and low voltage system of the mezzanine fulfillment center hall 1 structure

Location: Tehran

Operator: Digikal

Project: Equip and renovation of the call center

Location: Tehran and Babol

Operator: MTNI

Project: Expanding and renovation of the hospital emergency room and the laboratory

Location: Ahvaz

Operator: Arya super specialty Hospital

Project: Construction of telecommunication center

Location: Tehran

Operator: MCI

Project: Supply of equipment and civil construction, electrical, mechanical and controlling facilities of fuel tanks of telecommunication center

Location: Ahvaz

Operator: MCI

Project: Supply and implementation of fuel supply and firefighting systems of telecommunication center

Location: Tabriz

Operator: MCI

Project: Supply of equipment and installation of mechanical and fueling intelligent system of telecommunication center

Location: Tehran

Operator: MCI

Project: Supply and implementation of fire extinguishing gas of telecommunication equipment

Location: Tehran

Operator: MTNI

Buildings, steel structures and Strengthening/ Reinforcement

Project: Completion of shed,
buildings, Office space and landscaping
Location: Tehran
Operator: Digikal

Project: Fulfilment center hall 1 mezzanine construction
Location: Tehran
Operator: Digikal

Project: Cooling system construction of telecommunication center
Location: Ahvaz
Operator: MCI

Project: Construction of transformer building, energy center structure and development of diesel generator shed
Location: Isfahan
Operator: MTNI

Project: Supply of equipment and construction of diesel generator and fuel tank shed of telecommunication site
Location: Tehran
Operator: MTNI

Project: Supply of equipment, optimization and development of Ramazani Telecommunication Center
Location: Tehran
Operator: MCI

Project: Demolition and reconstruction of the warehouse shed
Location: Tehran
Operator: Digikal

Project: Implementation of shed structure, buildings and foundation of telecommunications container
Location: Ahvaz
Operator: MTN

Project: Drilling operations and tunnel construction
Location: Tehran
Operator: Tehran Municipality

Project: Reinforcement of Be'sat Bridge
Location: Tehran
Operator: Tehran Municipality

Project: Reinforcement of Fath-Depo Junction Bridge
Location: Tehran
Operator: Tehran Municipality

Project: Supply of equipment and construction of central administrative building
Location: Tehran
Operator: Iran Khodro Diesel

Other projects:

- . Construction of hospital boundary wall | Islamic Azad University | Dezful
- . Construction of mosque | Police | Dasht Azadegan
- . Design and implementation | Countrys airports company | Tehran
- . Demolition of residential building and landscaping | MTNI | Ahvaz
- . Preparation and construction of Telecommunication equipe shade | MTNI | Tehran
- . Implementation of the drainage facilities of city overpass bridges | Municipality | Tehran
- . Implementation of expansion joints of overpass bridges | Municipality | Tehran
- . Construction and installation of the guard shelter | MTNI | Mashhad and Isfahan
- . Implementation Carvansera Sangi overpass bridge drainage | Municipality | Tehran
- . Construction of a warehouse building | Arya Pazirik | Ahvaz

Building construction and renovation

Project: Construction of a residential building

Location: Ahvaz

Operator: Personal

Project: Construction of a residential building
Location: Ahvaz
Operator: Personal

Project: Renovation and equip of the office building
Location: Tehran
Operator: Vista Media

Project: Renovation and equip of the laboratory
Location: Tehran
Operator: PMI

Project: Renovation and equip of the office building
Location: Tehran
Operator: PMI

Project: Construction of roof garden
Location: Tehran
Operator: PMI

Project: Renovation and equip of the office building
Location: Tehran-Alikhani
Operator: MTNI

Project: Renovation and equip of the office building
Location: Tehran
Operator: PMI

Project: Renovation of private building
Location: Tehran
Operator: Private

Achievements and certificates:

- Quality management system certificate
- Integrated System Management (IMS) certificate
- HSE Management System Certificate
- Information Security Management System (ISMS)
- Occupational health and safety management system
- Environmental management system
- Certificate of safety competence from the Ministry of Cooperation, Labor and Social Welfare
- Certificate of contracting authority from the management and planning organization
- Certificate of contracting authority from Tehran Municipality
- Certificate of telecommunication activities from the Organization for Regulatory Regulation and Radio Communications

Awards:

- Partner Delivery DC Best Huawei
- Award Innovation Best Huawei
- Partner Improvement Capability Outstanding Huawei
